Colorvote

FORMAT:

Colorvote is a tailor-made online survey in which the opinions of individual team members are canvassed on key issues. We liaise with the team leader to prepare the survey. During the session, participants are invited to register their opinion on a range of issues. Responses are given by selecting a colour (from green, for "totally agree" to red for "totally disagree"). The voting session can either be run live in a team meeting using keypads, or from disparate locations as a web-based vote.

Results clearly highlight consensus and disagreement; they can re-tabulated by issue, by level of agreement, or by individual contribution and can be amended throughout the meeting or session.

ACTIVITIES:

Following the vote, participants review the results in a facilitated discussion. Votes can be re-taken to establish any change in opinion throughout the discussion and items can be amended, deleted or introduced as necessary.

TIMINGS:

From one-hour team meeting to on-going surveys.

LOCATION:

Colorvote is suited to sessions run anywhere in the world.

COSTINGS:

From £1500 + VAT. Please contact us for details of how Colorvote can be run for your team, and for a detailed quote.

Prices exclude VAT and travel
