Diagnostic Consultation

AIM:

To help individuals, teams and organisations identify effective ways of moving forward, develop the team and highlight key areas of strength upon which to build.

FORMAT:

One of our Fresh Tracks facilitators will liaise with the team leader or senior contact in advance of the consultation session to establish main issues for discussion, the background to the group or organisation and what the plans are for the future. At the session, we will work through a series of diagnostic tools to establish a set of steps and/or develop a programme that will help the team achieve its objectives.

ACTIVITIES:

This session is usually discussion-based although diagnostic tools like Colorvote or SDI (Strength Deployment Inventory) may be used to identify areas of consensus or disagreement or to establish key strengths and attitudinal behaviours within the group.

TIMINGS:

To suit the client.

LOCATION:

Worldwide.

COSTINGS:

From £1500.

Prices exclude VAT or travel

NOTES:

These sessions will be tailored to meet the client's exact needs and can address issues at senior board level, help integrate new joiners or look at developing creative strategies for the future.
