

## Human Table Football

**AIM:** Human Table Football is a fun and energetic game that will encourage teamwork and communication – not to mention football skills - at all levels.

**FORMAT:** Participants are divided into teams of five or more to compete against each other in a life size version of the traditional pub table-top football game. In this version players are strapped to poles within an inflatable arena on the ground. Substitutions can be made at any time as team members take it in turns to play.

**ACTIVITIES:** Human Table Football can be run on its own as a stand-alone activity, or as part of a multi event day with other activities such as quad biking, 4x4 driving, clay pigeon shooting or archery. Teams can play in a league or in a head-to-head competition for points, with the winning team taking the prize at the end of the day. Human Table Football is an ideal activity as part of a corporate team event and offers a good spectator sport for those not playing.

**TIMINGS:** Up to half a day as a stand-alone session.  
Can be combined with other tasks and challenges for a full day programme, or as part of a Multi-Activity or Fun Day.

**LOCATION:** Selected locations throughout the UK. Usually outdoor; indoor where large enough facilities are available (eg sports or exhibition halls)

**DRESS:** Casual comfortable clothing.

**COSTINGS:** From £1250 for one unit
