## Lights, Camera, Action!

**AIM:** To produce a short film or film outline either about their organisation or as an advert for a new product. Combines the need for the team to think and work creatively, within a short period of time. Strengths and hidden talents are highlighted when the finished films/outlines are shown at the end of the session. Visual thinking and planning allows participants to brainstorm together, thereby fostering more ideas and generating consensus within the group.

**FORMAT:** Following an open discussion on what makes an effective film delegates are given some pointers on how to make their film distinctive. Within a set time they must then produce either a storyboard - with a choice of using Polaroids and pens, digital cameras and laptops – or produce a film with the assistance of trained cameramen. This session can be tailored to suit the team's requirements or budget.
